

Chapter/Affinity Group: Life Members Affinity Group
 Reported by: Charles Turner (Chair)

Key Achievements and member value/services

- Managing 6 current proposals for IEEE Milestone applications.
- Planning submissions to the IEEE History Committee for approval.
- Planning the 2021 HISTELCON conference to be held in Russia

Current plan of activities

- Re-scheduling the postponed Milestone event at Eynsham, Oxford to a new date in 2021.
- Completion of existing proposals for the EMI CT Scanner, the 'Baby' Ferranti Computer, and the Atlas Computer and the Invention of Virtual Memory
- Organising a new series of webinars for Life members

Focus areas (2020-2021)

Goals	KPIs	Challenges to reach KPIs/ Resources
Involve more Life members in the work of the LMAG, using online facilities	Success in attracting more volunteers to support LMAG activities	Shortage of volunteer effort requires a new effort to recruit additional members of the LMAG management committee
Support a program of Milestone events and webinars in 2021.	Identification of suitable locations for Milestone plaques Level of interest in LMAG webinars	Many historic laboratories no longer exist.
Seek collaboration with other IEEE entities	Status of connections with Student Branches and YP groups	Making connections to key individuals involved in SBs and YP activities
