

History Activities

Reported by Prof. Anthony C Davies

Main activities so far and planned for 2021

History Activities and mainly aligned with and associated with the LMAG activities.

Recent events and activity:

- 1. Talk about QR Codes** to King's College London IEEE Student Branch (30th March 2021)
- Further discussion of **making QR Codes** to provide at IEEE History Milestone locations (including making some examples)
- 3. CAS Society Magazine:** responsibility on Editorial Board to oversee history topics and recently, a request received to write about Tellegen's Theorem.
- 4. Liaisons:** A. Other LMAGs and History Activities especially in France and Italy. B. Advice to France Section LMAG about plans for a Milestone for 200th anniversary of Ampere's development of electromagnetic theory. C. Maintaining communications with IEEE History Center and IEEE History Committee.
- 5. HISTELCON 2021** to be in Moscow, **HISTELCON 2023** proposal to be in Florence, Italy
- 6. LEO Computers Society:** attending their ZOOM meetings by invitation, ongoing discussion about various special events to commemorate LEO developments – no progress so far with location for an IEEE Milestone for LEO
