

Professional Registration and Industrial Delivery

Brian Harrington and Rod Muttram

Key Achievements & member services in 2021

- Future directions of IEEE and of BoD meetings recognize a gap in IEEE advancement for volunteers.
- The recognition structure of IEEE does not truly reflect the diversity of the membership.
- It is apparent that Industry in the U.K. and Ireland see that Professional Registration is needed to complete the path in personal development for Industry acceptance.

Plan of activities for 2022

- After a long period of deferment of Professional Registration activity owing to inaccessibility to Engineering Council licensed Societies, to restart the explorations.
- To further develop the draft MOU that exists with the IET and with Engineers Ireland.

Focus areas (2021-2022)

2021 Goals	2021 KPIs met?	2022 Goals	Challenges to reach KPIs/ Resources
Clarify Republic of Ireland Position with Engineering Council.	Engineering Council declined to give guidance.	To revisit when appropriate.	Engineering Council determining its position on awards after Brexit.
Complete the MOU for National Societies.	Draft examples are held by IEEE.	Negotiate matters affecting Professional Registration.	Acceptance of agreements by IEEE BoD.
Resume negotiations with Licensed Institutions.	Major offices closed owing to pandemic.	Seek new introductions to IET, BCS, IMechE.	Status of the Institutions after lockdown.
