

## IEEE WIE UKI Ambassadors Programme

### Fifth Event of 'Early Career Talks' Call for Participation

**IEEE WIE UKI** goal is to facilitate the recruitment and retention of women in technical disciplines globally. We envision a vibrant community of IEEE women and men collectively using their diverse talents to innovate for the benefit of humanity. IEEE WIE UK and Ireland through the Ambassador Scheme are calling women in engineering to participate in a technical, inspirational, and empowering session tagged "EARLY CAREER TALKS". The previous events were very successful, they have attracted attention from both academia and industry. This event converges the novel (state-of-the-Art) research areas in Engineering besides establishing networking/collaboration links, exploring new research opportunities for developing interactions between Academia, Industry and Government fostering economic and social development.

#### Criteria for who should apply and how to apply:

This programme supports engineers from academia or industry who have been in an industry/postgraduate position for less than 10 years. This session welcomes speakers/presenters from any part of the world who are:

- PhD students close to graduation and have published papers in respectful conferences/journals.
- Engineers who have participated in innovative projects.

When applying, send your **photo** saved as an image and include the following information in a **one-word** document:

1. Area of career (academia/industry).
2. Research interests or work field (e.g Robotic systems or Harvesting Systems).
3. Talk title and What the talk will be about (100-word).
4. Speaker bio (including links and web pages).
