

Chapter/Affinity Group: Industry – Professional registration
 Reported by: Rod Muttram/Izzet Kale

Key Achievements & member services in 2023

- Izzet and Rod met with the President (Bob Cryan) and CEO (Ed Almond) of the IET on 28-03-23 – meeting was friendly and positive
- IET would want registrants to be IET members
- Registration based on joint membership being explored
 - Reduction of % of both membership fees (15% suggested) or
 - Reduction in the registration fee for IET members who are also longstanding IEEE members
- Would that be enough to achieve our objective of retaining members through the university to industry transition (especially given employer’s reluctance to pay more than one professional subscription)?
- Initial reaction to subscription reduction from IEEE President cautious.

Plan of activities for 2023-24

- Izzet will continue dialogue with Saifur Rahman and IEEE HQ
- Rod will maintain contact with Ed Almond
- We will try to reach a mutually acceptable solution over the next few weeks
- If that fails we will re-commence the discussions with other PEI’s such as the IOP and IRSE re. them offering registration to IEEE UK & I Section as a paid service.

Focus areas (2023-2024)

2023 Goals	2023 KPIs met?	2024 Goals	Challenges to reach KPIs/ Resources
Go/No Go decision re. IET	-	Yes/No	Persuading both institutions that there can be a mutual benefit
If ‘No’ re-open discussions with other PEI’s		2023 and 2024	Finding a willing PEI with the resources and right skills to evaluate all/most of our potential registrants
